

Zapp ! The lightening of empowerment of William C. Byham

What I liked about this book is how it sparks your interest in the subject right away, as it uses a fun and dynamic science fiction story to deliver its valuable message.

It also makes it easy to identify and relate to the main character of the story who is a manager/supervisor. It teaches great lessons in leadership and how to motivate or de-motivate employees. What's more it delivers all this in a short concise manner.

Highly recommended
